Special Dispatch to the Intelligencer.

SISTERSVILLE, W. Va., Sept. 16.—
The Republicans of this city had a
gaia time this evening. After the news
of the great Republican victory in
Maine and Vermont, it was decided to
have a jollification meeting, and yesterday evening bills were gotten out
for that purpose. It was not supposed
that there would be much of a crowd
out, but there was. The parade started about 8 o'clock and when the Republican club came up on the Main

street there were fully five hundred in line.

The parade started from the Dinmond on Main street and went to the north end of the city and came down Wells street. It was headed by a drum corps of about twenty pieces and about fifty men on horse back.

It was expected that the uniforms for the large Republican club would have arrived by this evening, but they did not come and the members had to turn out without them. The parade passed through the city and over to the south side.

At every step there were enthusins-

the south side.

At every step there were enthusiastic Republicans firing sky rockets and burning red fire. The marchers were cheered all along the line by thousands of people. It was one of the greatest demonstrations of the kind ever witnessed in this city and it goes to show that there are many people here who will vote for McKinley and the gold standard that have never voted that way before.

In the line of march was noticed a number of Democrats who cannot stand Bryan and the Chicago platform. Old Tyler will roll up twice its usual Republican majority.

W. C. Welles, (Popocrat), of Parkersburg, addressed a very small crowd at Olston's opera house this evening and discussed the Issues of the campaign in a very loose manner. Many questions were asked by individuals who wanted enlightenment upon certain matters and the answers they received were unsatisfactory.

CLARKSBURG, W. Va., Sept. 16 Early this morning the Goff marching club of this city, returned from an excursion to Shinnston, this county. NATIONAL DEMOCRATS

Open Their Campaign in Tennesser Buckner and Fellows Speak.

MEMPHIS, Tenn., Sept. 16.-General Simon Bolivar Buckner, vice presidential nomines of the National Democracy and

ex-Congressman J. R. Fellows, of New York, addressed an audience of 4,000 people in Memphis to-night, under the auspices of the Sound Money League. The reception of the speakers was hearty and upon the stage and throughout the audience were representative business men. General Buckner confined himself to a general discussion of causes leading to the Indianapolis convention and to an argument against the free coinage of silver.

Colonel Fellows devoted his speech to an argument that the Chicago platform departed from Democratic principles and that no true Democrat was bound to accept its edict and support the nominee made by that convention.

Virginia, as saying that it is definitely settled that Senator Gorman will in a short time be at the head of the Democratic committee.

"Chairman Jones will not formally resign," he said, "because that will cause demoralization in the party, but Senator Gorman will be at the head of the campaign work in a few days. The first thing that Senator Gorman will do will be to put a stop to the rear platform speeches of Mr. Ryan. It is doubtful too whether Senator Teller will make any speeches in New York, as Senator Gorman regards that state as irredeemably wedded to the gold standard.

TEXAS IS DOUBTFUL.

The Political Situation There Unprece dented in the South.

DALLAS, Texas, Sept. 16 .- The political situation in Texas is growing exceedingly interesting. The Republican state committee is rapidly perfecting an organization on a scale heretofore unknown in the south. The recent Fort Worth convention authorized the newly elected chairman of the state executive committee, E. H. R. Green, to appoint a committee of three "with plenary powers," to direct the campaign and it is generally understood that the "plenary powers" clause has reference to the much-talked-of fusion with the Populists and Gold Standard Democrats.

Hon. J. M. Huston, of Indiana, ex-United States treasurer and chairman of the Indiana state committee in the campaign of 1883, was present at to-day's meetings. He has been in the state for the last ten days and it is generally thought he is accredited representative of the national committee. cal situation in Texas is growing exceed-

The first warning the officers had of the danger was a slight shock just forward of midships. Captain Glass at once ordered the port anchor out. The hook held firmly and the ship gradually swung broadside on the beach. She was firm and could not be moved so as to make the least headway by means of the anchor. The ebbling tide left her a fixture, for the night at least.

The tug Aquidnock arrived alongside the Texas within half an hour after she struck and quickly got a line out. The warship, however, proved too heavy for the tig to handle and was apparently firmly fixed on the rock.

The tug was obliged to give up the attempt to float the monater battleship, but will make another attempt at high water, which will be at 3 o'clock to-morrow morning.

CHICAGO TICKET IS ENDORSED

In the Platform that will be Adouted, and the Sound Money Democrats will be Given to Understand that they are Not Wanted-Tammany in the Saddle and May Fase with the Populists - John Boyd Thatcher will be the Nominco for Governor.

BUFFALO, N. Y., Sept. 16.-The platform of the Democratic party in the state as drafted to-night will have as its first proposition this statement:

"The Democrats of the state of New York in convention assembled do hereby endorse and approve the platform adopted by the national convention at Chicago and we hereby unanimously approve the nominees of said conven-tion, William J. Bryan and Arthur Sewall and pledge them our carnest and cordial support."

BUFFALO, Sept. 16 .- Though they are absent in the body, the leadership of Senators Hill and Murphy and W. F. Senators Hill and Murphy and W. F. Sheehan could be felt in the Democratic state convention to-day. Rumers were current in the hotel lobbies early in the day that all through the night the wires had been carrying communications between the senators and other of the old-time leaders on the one hand and various of their lieutenants now in the city, the purpose being to bring about a modification of the resolutions on the financial question and on the endorsement of Bryan and Sewali. In this connection it was a significant fact that Tammany men who were asked regarding the atti-Isryan and Sewall. In this connection it was a significant fact that Tammany men, who were asked regarding the attitude of their organization professed the utmost ignorance, saying that that question was yet to be decided at a meeting to be held later in the day. It appears to be a fact that two sets of resolutions have been prepared with a view to their submission to the convention. One set which Elliot F. Danforth has in charge is said to have the approval of Senators Hill and Murphy and Chairman Jones, of the Democratic national committee. The latter, it is alleged is willing to accept a qualified endorsement of the Chicago convention's work if thereby the nomination of a gold standard Democratic ticket can be avoided. Congressman Suizer and other of the radical silverites declare, however, that there shall be no half headed endorsement and that it must be freed from the domination from those who are designated as kickers and the assertion is further made that the resolution of those who took part in the revolt in Chicago.

It was 12:30 o'clock when Chairman Hinkley rapped the convention to order and announced that the state committee had selected State Senator Thomas F. Grady for temporary chairman. Mr. Grady addressed the convention for a period of about twenty minutes. In beginning he said:

"As loyal representatives of Democratic constituencies, you have assembled again to declare your faith in Democratic principles, your respect for Democratic authority and your confidence
in Democratic success. In this respect
you differ from some who were, for
many years, associated with you, using
their profession of Democracy as a mask
under which to conceal the purely selfish
character of their political actions, and
who are now leagued with your political
opponents denouncing Democratic principles, defying Democratic authority
and alding, insofar as they may, to defeat the Democratic candidates."

Grows Abnaire.

Grows Abusive.

"It is," the speaker continued, sham Democracy which sets up the opinions of the few as entitled to control, because of the wealth or culture or pedigree of those by whom such opinion gree of those by whom such opinions are held. It is a sham Democracy which has for its purpose the undue enrichment of the man-who relies for his support upon what his money earns for him, and the consequent unjust empovershment of the citizen who depends upon what his labor may be able to carn. It is a sham Democracy which yesterday asked for a bimetallic standard, upon the single condition of an international agreement, and to-day confesses that such a declaration was but a subterfuge, with which to deceive those honestly with which to deceive those honestly with which to deceive those honestly favoring such standard, and that all he time its purpose was to

maintain the supremacy of gold."

Mr. Grady alluded to Gov. McKinley as a mortgaged candidate, and spurned the allegation that the Chicago platform is "nothing but a declaration favoring repudiation, riot and ruin," He proceeded to argue the question of free silver colange from the bimetallist standpoint. Taking up the allegation that the Chicago platform means a disturbance of existing conditions, Senator Grady said:
"it is entirely true that we meditate a naintain the supremacy of gold

We would give to it the hischest protection of the law and find in it an incentive for every toiler to work and save. Neither would we attack the enormous accumulations of money which represent neither labor, nor intelligence, nor thrift, nor fortune except in the sense that those who have been enriched thereby have been by one governmental favor or the other permitted to exact tribute from the neople by levying against them a taxing power which should never have been excrehed in the form, or by the methods which they have been employed. After a brief reference to state issues Mr. Grady spoke of Bryan and Sewall as "Candidates of stainless character, commanding abilities, acknowledged worth and tried devotion. The people's cause," he added, "may safely be entrusted to their keeping, No pledge given by them to our citizens but will be faithfully and promptly redeemed." The roll call which followed showed contests in Albany, Monroe, Wayne and Wyoming counties.

Mr. Ridgeway, offered a resolution which was referred to the committee on platform to be appointed, endorsing the work of the Chicago convention and pledging hearty and honest support of its nominees.

A resolution emenating from District Assembly No. 75, K. of L. was similarly referred. It demands the enforcement of anti-trust laws of this state and the

of anti-trust laws of this state and the enactment of a law ngainst the watering of stock. After other resolutions had been referred and committees named the convention took a recess until 10 a.m. to-morrow.

The conditions to-night are rather interesting because of the intenal fights, which, while good-natured upon their surface, are not wanting in internal bitterness. The principal strife to-night is to prevent the adoption of the unit rule, and to prevent thereby the nomirule, and to prevent thereby the nomination of any candidate without a fair open fight. Particularly are the friends of Congressman Sulzer striving to this

of Congressman Sulzer striving to this end.

It is reasonably certain to-night that the ticket will be: For governor, John Boyd Thacker, of Albany; for lieut-governor, ex-Mayor Ryan, of Syracuse; for judge of the court of appeals, Robert C. Titus, of Buffalo; chairman state committee, Elliott F. Danforth; national committeeman, Frank Campbell.

This slate has not been deeded upon without hourly opposition and this opposition is so bitter that while certainty of the ticket is almost established at a late hour to-night, compleations may arise which will change any name upon the ticket with the possible exception of Judge Titus.

The planning of the candidacy of Mr. Thacher has been in the hands of a man who is not numbered among the delegates and this in itself has caused some of the opposition. The man is Authony

of the opposition. The man is Anthony N. Brady, of Albany, the president of several large corporations and a stockholder in the Chicago Gas Company.

This fact has arrayed the more radical free silver men against Mr. Thacher and they are claiming many pledges.

NEW HAVEN, Conn., Sept. 16.-The Democratic state convention, which assembled in this city to-day, began its business with every indication of being as memorable an occasion as has ever arisen in the political history of Connecticut. While the delegates, numbering 800, were almost solidly for endorse ment of the Chicago platform and candidates, the whole machinery of the candidates, the whole machinery of the party in the state was in the hands of gold standard men. Anticipating the upset which this condition made inevitable, twelve members of the state central committee resigned. CHICAGO. Sept. 16.— Chairman Jones, of the Democratic national campaign committee, arrived in the city to-night from the east. He said positively that there was no Jikelihood of the withdrawal of Mr. Sewall from the ticket. As to what Mr. Watson will do he said that he did not know. The report telegraphed from the east yesterday to the effect that the chairman was about to resign from the position he now holds and let Senator Gorman run the campaign, he declared to be utterly without foundation.

He said that he had made a careful canvass of the situation while in the east and in his opinion Bryan would carry the state of New York without much trouble.
